Important Safety Information

Explanation of Attention Words and Symbols used in this guide

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

⚠ WARNING

WARNING, indicates a hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION, used without the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in harm to your pet.

⚠ WARNING

- To avoid distractions while driving, please read all instructions thoroughly and ensure the Car Pet Booster Seat is correctly installed and your pet is settled before operating your vehicle.
- Before traveling, make sure the leash is adjusted short enough to keep pets from jumping out of the basket. An improperly adjusted leash creates an unsafe condition.
- A harness is recommended rather than a collar for safely securing pets in your vehicle. Remove pet before making adjustments to the seat or straps.
- If your pet is a chewer, check periodically so make sure the Car Pet Booster Seat has not been damaged by your pet. Replace the Car Pet Booster Seat if damaged.
- Although the Car Pet Booster Seat improves safety by reducing driver distraction, it has not been crash-tested and is not considered as safe as using our Vehicle Safety Harness.

CAUTION

- It is recommended that the Car Pet Booster Seat should be used in the back seat of the vehicle for better safety to your pet.
- Never leave pets unattended in the Car Pet Booster Seat. Do not ever leave your dog in a car in the sun or in warm weather. This can very quickly lead to heat stroke or other life-threatening situations.
- Premier Pet™ Brand is not responsible for injuries suffered by pets as a result of improper adjustment of straps or vehicle accidents.

What's Included

Car Pet Booster Seat

How It Works

The Premier Pet™ Car Pet Booster Seat quickly and inexpensively keeps your car seats safe from mud, fur, or your pet's nails. The Car Pet Booster Seat works in any vehicle with headrests, and it gives your dog an elevated view, which is particularly helpful for pet's who get nauseous in the car. It's perfect for pets up to 10 lbs, and helps to prevent your pet from distracting you while driving. There is a pocket located on the front of the Car Pet Booster Seat that is the perfect size to fit essential dog supplies. A Premier Pet™ Car Pet Booster Seat is a great and economical way to keep your vehicle clean and your pet happy.

Installation

1. Insert the metal support bracket into the seat section so the two "arms" of the bracket face forward and the "back" section aligns with the lower back inside edge of the seat (the edge with the D-ring installed). Insert each end of the bracket "arms" into one of the rubber tubes located at the top left and right corners of the seat (refer to see-through image at right).
2. To install the Car Pet Booster Seat, place the headrest strap around the headrest of the vehicle seat and adjust to obtain the preferred position of the booster.
3. Fasten the strap sewn into the lower edge of the Car Pet Booster Seat around the back of the vehicle seat and tighten. When installing on a bench seat (such as in the back row), the lower strap is optional. To keep the strap out of the way, engage the vehicle's seat belt and wrap the lower strap around the lap portion of the seat belt and snap the ends together.

Cleaning

Promptly wipe up any foreign matter or standing liquid with a damp cloth or sponge.
