Important Safety Information

Explanation of Attention Words and Symbols used in this guide

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

⚠️ WARNING

WARNING, indicates a hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION

CAUTION, used without the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in harm to your pet.

⚠️ WARNING

- To avoid distractions while driving, please read all instructions thoroughly and ensure the Bench Car Seat Cover is correctly installed and your pet is settled before operating your vehicle.
- A harness is recommended rather than a collar for safely securing pets in your vehicle. Collars are not suitable for automotive restraint and could allow the pet to launch into the cabin of a vehicle during quick stops or collision.
- If your pet is a chewer, check periodically so make sure the Bench Car Seat Cover has not been damaged by your pet. Replace cover if damaged.

⚠️ CAUTION

- It is recommended that the Bench Car Seat Cover should be used in the back seat of the vehicle for better safety to your pet.
- Never leave pets unattended in the Bench Car Seat Cover. Do not ever leave your pet in a car in the sun or in warm weather. This can very quickly lead to heat stroke or other life-threatening situations.
- Premier Pet™ Brand is not responsible for injuries suffered by pets as a result of improper adjustment of straps or vehicle accidents.

What's Included

Bench Car Seat Cover

How It Works

Premier Pet™ Bench Car Seat Covers quickly and inexpensively keep your car seats safe from mud, fur, or your pet's nails. The seat covers work in any vehicle with headrests, and they're durable and machine-washable. Seat belts are held neatly and securely in the seat belt keepers. A Premier Pet Bench Car Seat Cover is a great and economical way to keep your vehicle clean and undamaged while providing your pet with their own place in the car.

Installation

Important: Always make sure the vehicle seat is dry before installing the seat cover.

The cover is held in place at the top by two adjustable straps which go around the rear headrests. Lay the cover in place on the rear seat, loop the straps over the headrests and adjust the strap length for best fit.

Seat belt slits: The cover also includes two slits which allow seat belt buckles to pass through.

These slits are oversized to fit all vehicle configurations.

Side vents: The cover includes two side vents which can be opened or closed by means of hook and loop tape. For narrower vehicles, the fit will be improved by leaving the vents open.

TIP: It is possible to fasten the hook and loop tape of the vents around the seat belts (if seat belts not in use) to help hold the cover in place on the seat. Also, the seat belts can be buckled on top of the seat cover to help hold the cover in place.

Cleaning

Promptly wipe up any foreign matter or standing liquid with a damp cloth or sponge. Machine wash the cover on cold/gentle cycle with mild detergent. Line dry.
