

# No Pull Step-In Harness

GTA00-16705, GTA00-16706, GTA00-16707 | Product Manual

## ⚠ WARNING

- Before using this product, read and follow all of the instructions and warnings. Do not use this product if your pet is aggressive or is prone to aggressive behavior. Aggressive pets can cause severe injury and even death to their owner and others. If you are unsure whether this product is appropriate for your pet, please consult your veterinarian or a certified trainer.

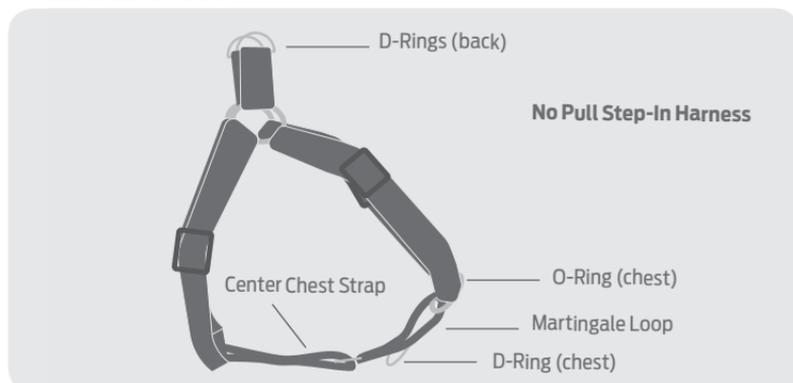

## ⚠ CAUTION

- It is vitally important that you and your pet remain safe while learning on-lead training. You must also be physically strong enough to restrain your pet when he tries to chase.

## CAUTION

- Not for tie-out use.

## What's Included

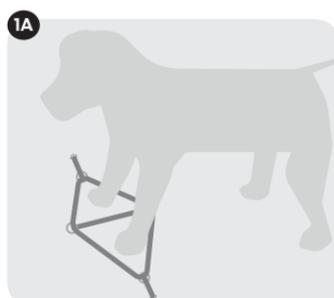

## How it Works

The Premier Pet™ No Pull Step-In Harness is comfortable and does not choke or gag as it wraps around your dog's chest. Multiple adjustment points makes for an optimal fit. One quick-release buckle makes it easy to slide on and off your dog. Two leash attachment points provide walking options. Front leash attachment reduces leash pulling, while the back attachment is ideal for more traditional use. For more control, use with the Premier Pet™ Multi-Functional Leash. This versatile, double-ended leash includes two leash snaps that attach to the front and back of the No Pull Step-In Harness, allowing safe and effective redirection of leash pulling.

## Fitting the Harness

1. Unbuckle the harness and lay it flat on the ground. With your dog standing over the harness, place their left paw in the left loop and their right paw in the right loop (1A).
2. Pull harness up and around the dog's body and connect buckle (1B).
3. Adjust each strap for a snug fit. When fit properly only two fingers should fit between the harness and the dog..

## Going for a Walk

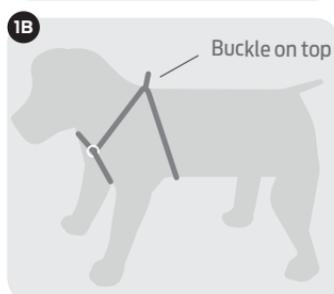

### Back Leash Attachment

To use as a standard harness, attach your leash to the two D-Rings on the back of the harness. If your dog typically pulls on the leash, he will likely continue to do so because of the "opposition reflex". Opposition reflex is the reflex that causes sled dogs to pull against pressure.

### No Pull Leash Attachment

Attach a nylon or leather 4-6 ft. leash to the D-Ring on the Center Chest Strap of the harness.

Although the harness may have an immediate impact on your dog's pulling habits and it may be more manageable to walk him, he may still pull some while wearing it. The harness is designed to redirect your dog from pulling and help achieve a loose leash walk. The front-chest leash attachment reduces pulling by steering your dog to the side and redirects his attention towards you. In addition, the Martingale Loop provides extra leverage for easy, relaxed control.

## Going for a Jog or Run

The No Pull Step-In Harness is a great harness for everyday use, including running or jogging. However, proper fit of the harness is essential to the overall comfort of your dog. Be sure to fit the harness according to the fitting instructions. If your dog begins to chafe, stop using the harness and consult your veterinarian.

## Tips & Maintenance

- We suggest using only the back leash attachment when running. A leash attached to the center chest strap during running could accidentally trip your dog.
- Check the harness regularly, especially on growing dogs. Over time and after multiple uses the harness may stretch or adjust.
- For more control, use with the Premier Pet™ Multi-Functional Leash. This versatile, double-ended leash includes two leash snaps that attach to the front and back of the No Pull Step-In Harness, allowing safe and effective redirection of leash pulling.
- Do not leave your dog unattended while wearing the harness.
- When not in use, safely store the harness.
- We don't recommend using a retractable leash with the no pull function, as the constant tension could encourage the dog to pull.
- Examine the harness for signs of chewing, fraying or damage.
- For more information, visit [premierpet.com](http://premierpet.com) or call +1 (866) 381-2785.

## Warranty

### One Year Non-Transferable Limited Warranty

This product has the benefit of a limited manufacturer's warranty. Complete details of the warranty applicable to this product and its terms can be found at [www.premierpet.com](http://www.premierpet.com).
